Exploring **BALNARRING,
(MERRICKS & MERRICKS NTH)**

Balnarring and Merricks North are home to wineries both large and small. Though not far from the hills the wines produced here are distinctly different. Italian varieties grow alongside old world favourites with a few surprises in between. Merricks sits in the middle of the Peninsula and contains many large rural holdings. Vast golden paddocks give way to sea glimpses. Dusty roads intersect green vineyards; a patchwork of farms and bush land to explore.

- Emily D.

INDIVIDUAL WINE AT ELAN

Since planting our vines in the early 1980's we have been quietly pursuing our passion to produce fine wines. We have continued to improve the viticulture, to trellis the vines so that we have maximum sun exposure of leaves and fruit. The grape vines are hand-pruned and the fruit is hand-harvested, so that only the best fruit is processed into our wines. At Elan we produce wines that are unique to our vineyard site, our "terroir", so that the wines are individual.

Over the autumn months visit Elan to taste the ripening grapes and observe what goes on in the winery during vintage. Cellar door wine tastings open first weekend of every month 12-5pm or by appointment.

So make Elan Vineyard a "must visit" winery to enjoy excellent wine and generous hospitality.

AN EXPERIENCE TO SHARE

This season experience the serenity and ambience at Lazzar Wine and Food Pavilion. Lazzar wine is made from our grapes grown in clean fresh chemically free environment. The Lazzar Food Pavilion is everything good about eating and drinking on the Peninsula, and if a more casual dining is preferred what better way to enjoy a pizza on the fresco balcony overlooking the vines. Lazzar is an enjoyable experience to share with friends.
